

Productivity Defined.

The AccuZ® ZT3 Series Zero Turn Mower is Land Pride's premier commercial-duty mower. The ZT3 is an excellent turf-care choice for ranchers, large estate owners, municipalities, campuses, and other landscape contractors. With a host of standard features, productivity comes naturally. The ZT3 60" deck meets the needs of customers who need to mow in tight areas, around obstacles, or want to maintain a lower cutting height over undulating terrain. The more productive 72"

ZT3 will meet the needs of customers with mostly level, open areas who want to get their mowing job done faster.

- Lockable floating front axle
- Standard remote commercial air filter
- Superior deck design with reinforced front edge
- Deluxe seat with springs
- Certified ROPS for added operator protection

Tele-Caster® Front Fork Suspension

We know that a smooth looking lawn doesn't necessarily mean a smooth feeling lawn. We've taken comfort one step further with our patented Tele-Caster® Front Fork Suspension. This standard feature allows the wheel forks to absorb the rough terrain, allowing the deck to continue to cut even, and gives you a more comfortable ride. This translates into less fatigue, and puts you in a better frame of mind when the job is done! (Patent No. 8,167,324)
